

SAMPLE BALLOTS – or – How to Research Candidates in your Area

By Shannon Sharpton and Grace McMillan

Sometimes there are so many candidates for different offices in your precinct/district that it's difficult to keep track of who is running for which office.

There's an easy fix.

Simply contact your [County Election Board](#) (note the "E-mail Addresses" link at the top left corner) and request a SAMPLE BALLOT for your area, and it will list every candidate and office up for election. Be sure to request either a Democrat or Republican sample ballot, according to whichever party you are registered with.

Please note: The Oklahoma State Election Board tells us that they hope to have a system in place in 2011 that will list all sample ballots on their web site, and at that time we will link to that updated information.
